Recognition of the Planning Committee

4/18/04

We participants of the April 15-18, 2004 NWSF Planning Retreat recognize the responsibility of the Planning Committee to manage implementation and oversight of our goals and directions consistent with our operating principles. This work includes:

- Establishing the organizing committee; and
- Expanding the responsibility circle to evolve our governing structure.

Everyone who makes a commitment to participate in advancing the NWSF will fulfill their responsibility or assist in securing another to assume their role.
